SOUTH AFRICA'S FINEST DJS topjocks

Tribute Streaming

Funeral & Memorial Livestreaming — Cape Town & Durban

Bringing family together, wherever they are. When distance, health or circumstance keep loved ones from being there in person, we make sure they don't miss the moment that matters. Professional, discreet livestreaming for funerals and memorial services across Cape Town and Durban — so no one has to grieve alone.

How It Works

We arrive quietly, set up with minimal fuss, and stream the service privately to a link shared only with those the family chooses. No public broadcast, no intrusion.

- Private, unlisted stream — never public
- Clear audio direct from the service sound system
- Discreet, fixed camera setup
- Backup recording in case of any connection issue
- A private link sent directly to your family and friends list

Service Packages

Static Camera — a single discreet, fixed camera giving a clear wide shot of the service, with clear audio from a discreet mic. Recorded and streamed live to a private, unlisted link.

Mobile Camera + Operator — an operator gently follows the service — the readings, the eulogies, the family — with clear audio throughout. The most natural, complete record of the day. Recorded and streamed.

Add a PA System — either option can include a full PA (cordless microphones and speakers) to carry clear sound through the venue for those attending in person.

Why Families Choose Us

Discretion first — a low-profile setup from the back or side of the room. **Audio that's heard** — we tap directly into the venue sound system. **Built-in reliability** — a mobile backup connection and simultaneous local recording mean the family still receives the full service.

For Funeral Homes

We work alongside funeral homes across the Western Cape and Durban as a trusted streaming partner — available on short notice, briefed before every service, and committed to making this part of your offering seamless.

35+ years AV experience · Cape Town & Durban · Discreet, low-profile setup · Backup recording always
